Seattle Yachts Acquires Atomic Tuna Yachts, Ushering in a Bold New Era of Innovation and Performance

Alameda, CA — October 22, 2025 — Seattle Yachts, a premier name in luxury and performance yachting, is proud to announce its acquisition of Atomic Tuna Yachts, a boutique brokerage renowned for its success in the Bay Area. This strategic move marks a significant milestone in Seattle Yachts' mission to redefine the future of recreational boating in California.

"Atomic Tuna Yachts has built a cult following among yachting enthusiasts said Patrick Harrigan, CEO of Seattle Yachts. "By bringing their visionary team and clients into our fold, we're not just expanding our coverage—we're elevating the entire yachting experience." Founded in 2018, Atomic Tuna Yachts quickly gained acclaim for its sleek marketing and unparalleled customer service. The acquisition will integrate Atomic Tuna's philosophy and client following into Seattle Yachts' broader sales portfolio including new yachts, resulting in a new generation of offerings that bring newer larger boats to the marketplace.

We're thrilled to join forces with Seattle Yachts," said Wayne Goldman, Founder of Atomic Tuna Yachts. "Together, we'll push boundaries and deliver boats that inspire adventure and confidence on the water. As I take on a larger role with Seattle Yachts, I'm also devoting more of my focus to Selene Yachts Americas, our U.S. distributorship for the Selene line of luxury trawlers. It's an exciting time to expand both brands and bring more owners into the Selene family."

Seattle Yachts invites customers, partners, and enthusiasts to explore the new vision at Seattleyachts.com and join the celebration at upcoming launch events across the country.
