

We are pleased to announce the continuation of our Grow Boating grant program for 2026 – 2027, once again offering ten \$1,000 grants to organizations that help get new boaters on the water, promote diversity and inclusion, and encourage current boaters to go boating more often.

The application process is now open and closes October 31, 2026. Grants will be announced in December 2026 and funds will be distributed to grantees in the spring of 2027. More information about the grant program, types of programs funded, and the application can be found at nmta.net/boating/growboating. Please help us spread the word and forward the [application link](#) to any organizations you think might be interested.
