GOST ANNOUNCES EXPANDED LEADERSHIP AND OPERATIONS ROLES TO SUPPORT CONTINUED GROWTH

Fort Lauderdale, Fla. – GOST® (Global Ocean Security Technologies), a world leader in marine security, tracking, monitoring and video surveillance systems, announced today several key personnel role expansions that strengthen the Company's operational capabilities, customer support, technical expertise and marketing initiatives.

Danny Ashmore has been promoted to the role of Operations Manager, where he oversees daily operations, sales and technical support, purchasing, RMA processing and overall customer service. Ashmore joined GOST in August 2010 and has become an integral part of the company's success through his extensive technical expertise and deep understanding of the Company's history, as well as security, tracking, and video solutions. Prior to joining GOST, Ashmore built a distinguished career in marine electrical systems and vessel automation. He previously worked with Ares Marine Custom Yachts in Fort Lauderdale, performing electrical installations on custom yachts, including power distribution systems, entertainment networks, wireless communications systems, and vessel electronics integration. Before that, he served as a Service Technician with Servowatch Inc., where he installed and commissioned alarm, monitoring, and security systems aboard vessels throughout the United States and Caribbean.

"Over the past 15 years, Danny has proven himself as one of the most knowledgeable and trusted members of our company," said Brian Kane, President and CEO of GOST. "His technical expertise, operational leadership, and commitment to customer satisfaction make him uniquely qualified to oversee these critical areas of our business."

GOST has also added to the responsibilities of **Joshua Gorman**, who joined the company in 2025. In his new Technical Operations role, Gorman is responsible for product assembly, programming, shipping, and technical preparation of GOST systems before deployment to customers and dealers. Prior to joining GOST, Gorman worked as a technician for NCH Marine in Fort Lauderdale, where he installed hydraulic stabilizers, bow and stern thrusters, and vessel steering systems. He also gained valuable electronics experience at Dockmate, where he assembled and programmed advanced remote-control docking systems.

"Joshua has quickly become a valuable contributor to our operations team," Kane said. "His hands-on experience, can-do attitude, and technical aptitude help ensure that each and every GOST product meets our quality standards before reaching customers."

GOST also announced that **Rebecca Lancashire** has taken on new responsibilities and will now oversee all of GOST activations of tracking, video, and security systems in addition to managing the Company's marketing initiatives. Lancashire is now activating terminals globally, while coordinating customer

engagement programs, event activations, trade show initiatives, dealer outreach efforts and integrated marketing campaigns designed to strengthen the GOST brand and enhance customer experiences.

“Rebecca has played a crucial part in elevating our marketing efforts over the last year, and her attitude in taking on the crucial task of activating our systems is taking GOST to new heights,” said Kane. “Her creativity, organization skills, and industry knowledge will help us keep a better pulse on our customer needs while continuing building strong relationships throughout the marine industry.”

All of these expanded roles reinforce GOST's ongoing investment in customer support, operational excellence, new product and market development as the company continues to grow its presence in the recreational and commercial marine sectors.

“Each of these team members bring unique expertise and dedication to their positions,” Kane added. “Their new responsibilities reflect both their individual contributions and our confidence in their ability to help drive GOST's continued success.”
