FOR IMMEDIATE RELEASE

Power Boats & Tenders Expands to Dania Beach with New BRIG Showroom

DANIA BEACH, Fla. — BRIG USA dealer Power Boats & Tenders is expanding its South Florida presence with a new location in Dania Beach, featuring a BRIG showroom. The new location complements the dealership's existing showroom in Stuart, Florida, bringing BRIG's premium rigid inflatable boats and yacht tenders closer to boaters throughout the region.

Located at the former Cozy Cove Marina at 300 N. Federal Highway, the five acre waterfront facility sits on the Dania Cut Off Canal, just south of Fort Lauderdale Hollywood International Airport. Its position along US 1 offers convenient access by land, while its waterfront location provides easy access to Port Everglades Inlet.

"Opening our new Dania Beach location is a significant milestone for Power Boats & Tenders," said Wyatt Poston, Owner of Power Boats & Tenders. "It allows us to better serve our growing community in South Florida and provides a dedicated space to showcase the incredible craftsmanship of the BRIG line. What we're most excited about is the opportunity to offer our customers a truly immersive experience—a showroom where they can see the quality of these boats firsthand, get expert advice on customization, and feel confident that they are getting a vessel perfectly suited for their time on the water."

"South Florida is an important market for BRIG, and Power Boats & Tenders' expansion creates another exceptional setting for customers to discover our boats," said Tim McNulty, Vice President of BRIG USA. "The Dania Beach showroom complements their Stuart location beautifully, connecting more boaters and yacht owners with the design, performance and versatility that define BRIG."

The new showroom will give customers an opportunity to explore BRIG boats in person and work with the Power Boats & Tenders team to select a model suited to their lifestyle, from a refined yacht tender to a versatile boat for coastal cruising and days with family and friends.

With locations in Stuart and Dania Beach, Power Boats & Tenders continues to expand access to premium RIBs and yacht tenders along Florida's east coast.
